Indicator mapping

SDG 11.1.1 (UN): Proportion of urban population living in slums, informal settlements or inadequate housing.

SDG 11.1.1 (ARG): Proportion of population that lives in deficitary private housing and in an irregular status of land tenure.

ARG 2010	ARG 2019	ARG 2030	Level	BA baseline	Methodological observations (GCBA)	MISTRA/CELS observations	Statistics agency observations	Housing Institute observations
6%	3%	0%	Level I	1.1%	The National Census is outdated for BA's housing situation. There is no updated information on homeless population. There is no official data on social housing inhabitants. Recommendation: use complementary indicators from the City's statistics.	Incorporate homeless population, inhabitants in social housing system, inhabitants in inadequate housing, inhabitants in temporary housing.	Take INDEC's definitions of social housing, housing deficit. Statistics agency works on the validation process with INDEC.	Develop qualitative and quantitative housing deficit indicator, taking CALMAT variable for its calculation.

Voluntary Local Review

BA presented its VLR 2019 and joined the global cities league leading the VLR process worldwide

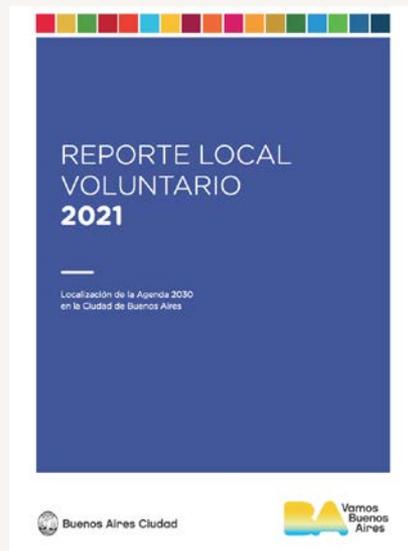

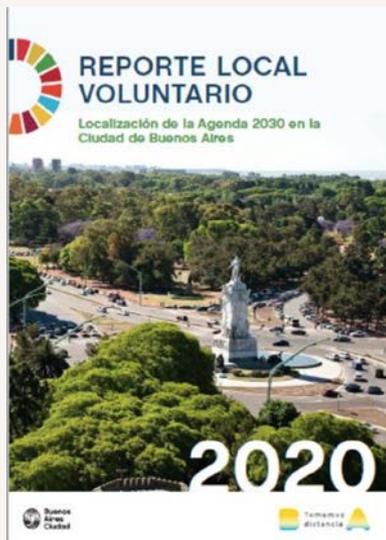

- SDGs reporting mechanism at the UN High-Level Political Forum
- Designed for national governments
- 2018: NYC first city to present its VLR

VLR 2019:
Building a sustainable
and inclusive Buenos Aires

- Accountability
- Public access to information
- Partnerships for the SDGs
